MOTHERWOOD®

Crafted with care.

BUILT FOR TOMORROW.

Built with care.

ENGINEERED FOR EXCELLENCE.

A mother sees potential where others see possibility. She nurtures it, strengthens it and helps it become its very best. That philosophy inspires Motherwood.

Launched by Sudama Wood Panel Pvt. Ltd., Motherwood combines decades of business excellence with one of India's most advanced MDF manufacturing facilities.

Every board is crafted with precision, consistency and care to deliver performance that professionals can trust.

Every great creation deserves a **STRONGER FOUNDATION.**

Born from the belief that the best solutions are those that quietly support, protect and endure, Motherwood brings together advanced technology, superior quality and thoughtful innovation to create engineered wood products that help architects, designers and craftsmen bring their vision to life. From beautiful homes to ambitious commercial spaces, Motherwood is designed to bring out the best in every project.

Why **MOTHERWOOD?**

> Complete range from 1.5 mm to 35 mm

> Low-emission E0/E1 boards across the portfolio

> Superior smoothness and uniform density

> Pan-India presence with growing dealer network

> Longer tool life and better machinability

> State-of-the-art manufacturing facility in Sitarganj

Available Board Sizes:
6’×4’, 8’×4’ & 10’×4’

MOTHERWOOD®

PRE-LAM *Collection*

Motherwood Pre-Lam is a fully automated production line that guarantees a perfectly smooth and consistent finish every time, with no human touch involved. Made from 100% melamine, it offers impressive durability, is highly water-resistant, and longer-lasting. Plus, it's designed to stand up to UV light, so it keeps its look intact even with prolonged exposure to sunlight. It's a great option for those seeking quality and long-term performance while maintaining the aesthetics.

MOTHERWOOD

TerBo+

TERMITE PROOF BOILING WATER PROOF

India demands more from its materials as every challenge here is real and constant. TerBo+ is built exactly for that. Welcome to a board that doesn't flinch, whether it's fire, water, pests, or pressure. TerBo+ is the next-generation high-density board designed for the toughest applications from moist areas to heavy storage, high-traffic floors to rugged kitchen units. With a surface density of up to 1000+ kg/m³, it beats plywood & other wood panels at their own game.

SUDAMA WOOD PANEL

MEET THE BOARD
THAT'S REDEFINING DURABILITY.

Advantage Super HD+WR

- Super High Density
- Super Water Resistant
- Super Smooth Surface
- Super High Screw Holding Capacity
- Termite, Borer & Fungus Resistant
- CNC & Routing Grade

MOTHERWOOD
SUPER HD+WR™
Super High Density + Water Resistant

India's weather throws a lot at our homes, be it humidity, heat or monsoon moisture and Super HD+WR is built to take it all without flinching. Unlike plywood, which can swell or crack, this board stays stable and strong. Plus, Indian homes love carved panels, smooth painted surfaces, and detailed CNC designs - these are some things plywood struggles with. Super HD+WR makes all of that easy, giving you a board that not only lasts longer but looks better too.

Perfect for kitchens, bathrooms and demanding interior applications.

Available Board Sizes:
6'×4', 8'×4' & 10'×4'

THE BEST PART

Sustainable & crafted using **eco-conscious** processes and responsibly sourced material.

THE MOTHERWOOD ADVANTAGE WHERE TECHNOLOGY MEETS PRECISION.

At the heart of Motherwood lies one of India's most advanced MDF manufacturing facilities in Sitarganj, Uttarakhand. Powered by cutting-edge technology and world-class machinery, every stage is engineered to ensure consistency, durability and superior finishing.
Advanced Manufacturing Highlights.

- Yalian E-Series Continuous Press
- Continuous production technology
- 10-head sanding line
- Advanced pneumatic filtration system
- Precision moisture monitoring
- Density profile control systems
- High-speed automated production

The Result: Smoother boards.
Stronger boards. More consistent boards.
Every single time.

BOARDS WITH A DIFFERENCE. BETTER FOR PROJECTS. BETTER FOR PEOPLE.

Low Emissions

E0 and E1 compliant boards designed for healthier indoor environments.

Consistent Quality

Uniform density and superior surface finish across every board.

Complete Thickness Range

From 1.5 mm to 35 mm one of the widest ranges in the industry.

Longer Tool Life

Cleaner fibres and advanced processing help reduce wear on cutting tools.

Sustainable Manufacturing

Responsibly sourced materials and efficient production practices.

Faster Delivery

High-capacity production ensures dependable supply and reduced lead times. When every detail matters, Motherwood delivers confidence.

SUDAMA WOOD PANEL

For over fifty years, Sudama has been more than just a name—it's been a promise. A promise of quality, innovation, and leadership across industries like synthetic leather and real estate.

With a strong foundation and an annual turnover of Rs. 900 Crores, we've laid down roots deep enough to explore new territories with confidence. Now, we're bringing that legacy to the MDF industry with Sudama Wood Panel Pvt. Ltd. As the newest player, we're not just here to participate; we're here to change the game. Our goal is clear: to become a top national brand, delivering products that redefine the possibilities of engineered wood panels. We're ready to make a mark, and we invite you to be part of this journey.

BRINGING OUT THE BEST.

Great architecture begins with great choices.
The choice of materials that perform longer.
The choice of solutions that care for people
and the environment.

The choice of a partner that stands by your vision. At Motherwood, we believe engineered wood should do more than meet expectations, it should elevate possibilities. Because when quality, innovation and care come together, remarkable spaces follow.

MOTHERWOOD®

Crafted with Care. Built for Tomorrow.
