MEET THE BOARD
THAT'S REDEFINING DURABILITY

MOTHERWOOD
SUPER HD+WR™
Super High Density + Water Resistant

Built for the modern world. Backed by science. Trusted by experts.

Advantage Super HD+WR

- High Screw Holding Capacity
- Termite, Borer & Fungus Resistant
- Super Smooth Surface
- CNC & Routing Grade
- Low Emission Boards

MOTHERWOOD

WHY SUPER HD+WR™ ?

Super High Density + Water Resistant

India's weather throws a lot at our homes, be it humidity, heat or monsoon moisture and Super HD+WR is built to take it all without flinching. Unlike plywood, which can swell or crack, this board stays stable and strong. Plus, Indian homes love carved panels, smooth painted surfaces, and detailed CNC designs, these are some things plywood struggles with. Super HD+WR makes all of that easy, giving you a board that not only lasts longer but looks better too.

Here's what sets it apart

Super High Density (more than 850 kg/m³)
More strength, more stability

Super Water-Resistant
No swelling, no warping

Termite, Borer & Fungus Resistant
Built to last in every condition

Smooth Surface
Perfect for CNC work, carving & polishing

Eco-Friendly Manufacturing
For a greener tomorrow

State-of-the-art Yalian Continuous Press
Consistency you can trust

Compared to regular MDF or even plywood, Super HD+WR scores higher on everything that matters

- High Melamine Content
- High Internal Bonding
- Less Water Absorption
- Strong Screw Withdrawal Resistance
- More Rupture Modulus
- Enhancing Tool Life

MOTHERWOOD

SUPER HD+WR™ IS READY TO DELIVER.

Super High Density + Water Resistant

Applications

Furniture: From modular kitchens to workstations — it handles it all

Interiors: Wall paneling, TV units — seamless and stylish

Moisture-Prone Areas: Think bathrooms, coastal homes, and kitchens

CNC/Carving Work: Intricate designs? Clean cuts? Nailed it

Commercial Use: Long-lasting, low-maintenance installations

THE BEST PART

Sustainable & crafted using **eco-conscious** processes and responsibly sourced material.
